As per the Pennsylvania PUC (Public Utility Commission) if you fall within the income guidelines on the next page, your utility service will not be terminated at this time. We do ask that you work with us to set up a payment plan, as this will help keep your bill from getting out of control. Please keep in mind that the PUC plans to revisit this matter in the late winter or early spring, 2021 and we will follow their guidelines. We do not anticipate that the PUC will authorize or require any type of forgiveness of past due utility balances and we ask that you plan accordingly.
